

PFEIFER Nail Disc

Item-No. 05.200

PFEIFER Cover Cap

Item-No. 05.229

PFEIFER

Fixing System

Accessories

Socket Dowels are fastened easily to wooden or plastic formwork by means of the PFEIFER Nail Disc.

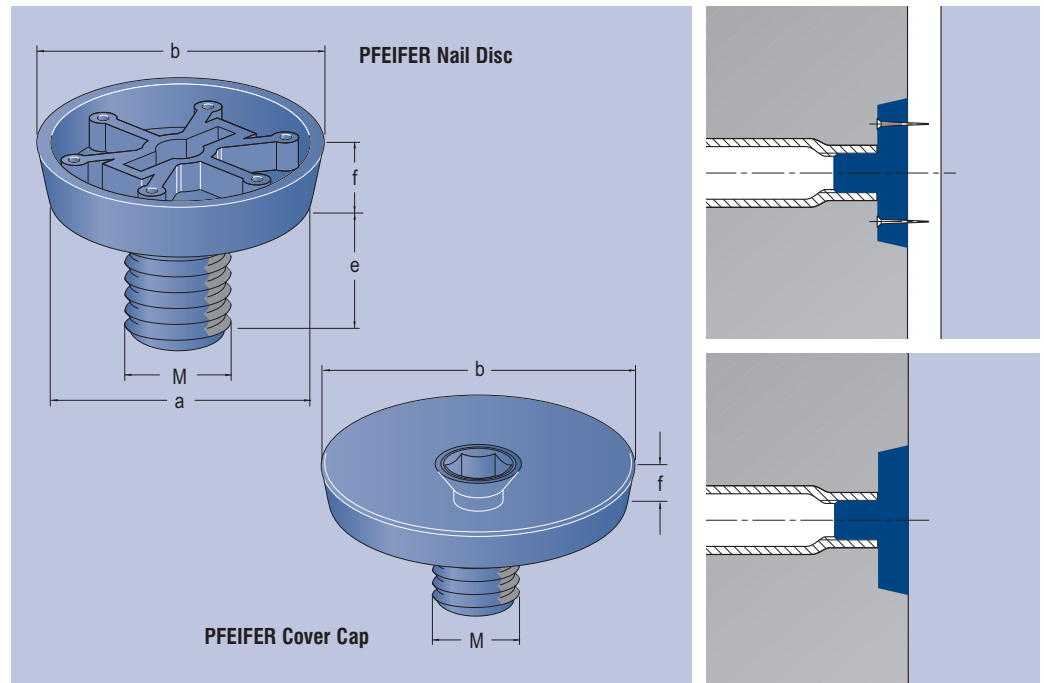

PFEIFER Cover Caps are used to seal socket dowels if they are cast in recessed using PFEIFER naildiscs. They are designed for a permanent and even surfaced sealing. If there is any corrosive atmosphere the stainless steel type should be used. In order to preserve the socket dowels we recommend to lubricate it.

Material:

HDPE

Material Cover Cap:

Steel, zinc-plated or stainless steel
